

18th Annual
Breeder's CHOICE
Gelbvieh Bull Futurity

SATURDAY, JANUARY 10, 2015

Held in conjunction with
National Western Stock Show • Denver, Colorado

Breeder's CHOICE

Gelbvieh Bull Futurity

GENERAL INFORMATION

The Breeder's Choice Bull Futurity has been initiated by Gelbvieh breeders and supporters to increase participation in the National Gelbvieh Show, the National Gelbvieh Sale, the National Gelbvieh Convention and to identify the most useful young sires in the Gelbvieh breed. The sponsor of the annual Futurity will be the Breeder's Choice Bull Futurity, Inc., a non-profit organization, not associated with the American Gelbvieh Association.

The Futurity winners will be selected by scored balloting of the participating breeders members. Ballots must have a different bull in 1st, 2nd, and 3rd positions. Ballots must include all three positions.

The consignor of the Futurity winner shall receive approximately 80% of the net Futurity funds. Two runners-up will be identified to receive approximately 10% respectively.

The Futurity winner will be sold as Lot 1 in the National Gelbvieh Sale. The net sale proceeds of the winning bull will be given to one breeder/member who will be selected by a random drawing.

Each Futurity breeder member will receive 20 (twenty) units of semen from the winning bull.

The voting will be held at the National Western Stadium Arena on Saturday, January 10, 2015 at 10:00 am. The top 3 vote winning bulls in the initial voting will come back to the arena for a second voting to select and announce The Breeder's Choice Gelbvieh Bull Futurity Champion.

Futurity winner and drawing along with announcement of winner of Breeder's Choice Gelbvieh Bull will be honored at Annual Gelbvieh Banquet held in the Double Tree Hotel Saturday Night, January 10, 2015 at 6:15 pm.

The 2015 Futurity is limited to 53 breeder memberships. Three breeder memberships will be sold at public auction before the drawing for the sale proceeds in the Double Tree Hotel. We will be selling the 2 of Clubs, 2 of Diamonds and 5 of Spades.

All bulls entered in the 2015 Breeder's Choice Gelbvieh Bull Futurity have been DNA tested with high density Genomic EPDs and are tested free of the following genetic defects: AM; NH; CA; and DD. The winning Breeder's Choice Futurity bull is AI qualified and all test have been completed to meet the AGA requirements for AI sires.

Futurity Champion Bull **sells as Lot 1 in National Gelbvieh Sale**

Sunday, January 11, 2015 at 1:00 PM

in the Livestock Center located in the yards, National Western Stock Show

SCHEDULE OF EVENTS

Friday, January 9, 2015

7:30 PM

Breeder's Choice Bull Futurity Board and Committee Meeting
Double Tree Hotel

Futurity members sign contracts and pick up membership cards at Double Tree Hotel.

Saturday, January 10, 2015

10:00 AM

Breeder's Choice Bull Futurity
Stadium Arena

6:15 PM

AGA Social and Breeder's Choice Bull Futurity final events
Double Tree Hotel

To purchase Futurity Champion possession or semen syndicate shares contact Futurity Manager.

**Three Breeder's Choice Gelbvieh Bull Futurity Memberships will be sold:
2 of Clubs, 2 of Diamonds and 5 of Spades**

Breeder's Choice Gelbvieh Bull Futurity \$1,000 Scholarship

Congratulations to the 2014 Scholarship recipient Sydney Bigger, Illinois
The 2015 Scholarship recipient will be announced at the banquet Saturday, January 10.

Entry 1

Black Crown 626A has been a favorite since birth among many at the farm. We absolutely love the way this bull is put together. He has the look that should grab the attention of the futurity members the minute he walks into the ring. He has all the right parts in all the right places with a big hip, wide topped, very large testicular development, clean fronted and a very eye appealing look. His sire, Future Investment, our Jr. herd sire is making his mark in the breed as a leader and his dam is a leading young female sired by our Sr. herd sire, Granite 200P2, will be going to the donor pen this year. She also produced the second high selling herd sire in our bull sale last year, selling to Rippe Gelbvieh in Nebraska. It is sometimes hard to compete against young pretty spring born bulls with an older fall born bull that has already got the bull look, but never the less we think this bull is pretty neat and could be a breed changer. We would certainly appreciate you taking a good look at Black Crown and consider him when you vote.

JCGR BAR GT Code Red 508A ET is the product of two outstanding parents. His sire, RID R G-Force 922W, was the 2011 National Champion Gelbvieh Bull and makes them as good as any. His dam, BEA Ella 7000T, has already produced one Breeder's Choice Gelbvieh Bull Futurity champion from RID R Collateral 2R. Code Red's EPDs rank in the top 1% for WW and YG; the top 3% for FPI; the top 4% for YW; and the top 5% for CW. He boasts a 706-pound adjusted weaning weight, and a 1,279 adjusted yearling weight.

Entry 3

Upswing is the kind of bull that can do what his name says, he could put any program on the upswing. He is as complete a purebred bull as there has been in a while. It is hard to pick a hole in this dude everything just fits. He is built flawless from the ground up offering a big foot and plenty of bone, while being as bold sprung and deep as you can make one. When you study him from behind, he comes with a lot of top and hip. He is backed by a no-miss cow that offers some outcross genetic. His sire is our up and coming herd sire, Blue's Impact, who combines Black Impact, Harley and the Velvet Moon cow. Blue's Impact is proving himself as he sired the 2013 reserve calf champion in both the Balancer and Purebred shows in Louisville, the champion Balancer at the 2014 Eastern Regionals, and the Reserve Champion Balancer at the 2014 junior nationals. We expect Upswing to do nothing less than his daddy. Look him up to put your program on the Upswing.

TAU Blackshirt 8B is another great HYEK Black Impact son we are proud to present to you in the Breeders Choice Gelbvieh Bull Futurity. Blackshirt is Homozygous Black, Homozygous Polled, and out of a great donor cow, Ms. Gunnison 106R 8204U. 8204U goes back to Ruppel Gunnison N31 who is one of the greatest cow makers to ever walk our pastures. The mating of Black Impact with 8204U led to a true maternal and carcass standout with plenty of style and power to boot. I trust that 8B can make a great set of bulls and females when I consider what his maternal sire and dam are capable of doing. When you analyze 8B on paper you also must recognize that Blackshirt ranks in the top 25% for FPI, 10% for Ribeye Area, and 1% for Yield Grade. This tandem of maternal and carcass traits makes Blackshirt a truly unique herdsire prospect for any operation, and there is no doubt he has the phenotype to back it all up. 8B is extremely extended and clean up front, level made and square hipped. He's also long bodied, sound structured, and expressively muscled. Blackshirt is a versatile Gelbvieh herdsire prospect, and we trust he will succeed in all facets of any operation. Whether you're looking for bulls, females, or feeders Blackshirt is an all-around candidate for the job. Take a look at this impressive young herdsire in Denver and vote with confidence.

Entry 5

Heavy muscled, deep bodied and easy fleshing best describes this Traction son. Eye appeal and structural correctness are some of his best attributes but don't overlook his muscle, design, and breeding potential. A favorite of all who have seen this calf, he is a true breeding tool if not a purebred that can help advance the breed!

Every breed is looking for outcross genetics and JRI Overdrive 253B91 offers you total outcross genetics on the paternal side. Overdrive's Canadian outcross sire, SLC Outback 142X, swept the 2012 Canadian National Show, while posting an amazing 1,417 pound yearling weight. On Overdrive's maternal side, you're looking at calf raising machine/multi-generations of Dam of Merit genetics. Overdrive's dam, JRI Ms Secret Stash 253W81 was honored as a 2014 Dam of Merit female. His grandam, JRI Ms Extra Design 253P71 was honored four times as a Dam of Merit and she's a current 2014 Dam of Distinction female. Great grandam, JRI Ms Free Agent 253M61 was honored five times as a Dam of Merit and once as a Dam of Distinction. Homozygous polled purebred outcross genetics from one unmatched Dam of Merit/Dam of Distinction cow family. Semen sales are closed on Overdrive's sire, SLC Outback 142X, so here's your opportunity to share in some unique outcross Gelbvieh genetics.

Post Rock Super Track is one of the most complete and intriguing herd sire prospects ever produced in our program. His donor dam has produced and continues to produce many exceptional progeny including past Bull Futurity winner RTR Solution and a Reserve National Champion Female. Individually Super Track is equally impressive on paper as he is in appearance with a top 5% calving ease, 10% low birth, 10% weaning weight, 15% yearling weight, 2% FPI and top 30% marbling. He is homozygous polled by birth right and Super Track truly is the kind of purebred bull needed to lead our breed forward.

Entry 8

At Dawson Creek, we value proven cow-families. In the case of Businessman, his dam, DARC P401, better known around the breed as "Darci", has already written her fair share of breed history. Her first calf, RTRT Solution, was a Breeder's Choice Futurity Champion. Darci also produced the 2010 Reserve National Champion Gelbvieh Female. Perhaps a better example of Darci's maternal strength is the fact that she ratios 99BW and 102WW...and 17 daughters in production ratio 103WW!

Businessman is a black, Homozygous Polled powerhouse. We appreciate him for the bone, substance, and overall quality that he brings...all while maintaining a top 2% of the breed CED EPD and top 10% of the breed BW EPD! He exhibits the tremendous muscle and rump structure of his sire, JRI Top Producer.

In Denver, we will have Businessman and two maternal sisters on display. Those two maternal sisters have each already won classes at this year's Junior National and divisions at the American Royal. We think you will agree that the three represent Darci quite well and we thank you for your consideration.

His sire, DDGR Navaho 188X, is homozygous black & homozygous polled and has produced many offspring that are repeatedly sought in the pasture, show and sale ring! His Dam was the 2013 Grand Champion Female at the Canadian Western Agribition in Regina, Saskatchewan and is a maternal sister to DVE Davidson Romance 116W who was the 2011 NWSS Reserve Champion Bull. DVE Davidson Chester 72B will show alongside his Dam at the National Gelbvieh Show in Canada. His Ideal EPD's, enough milk & grow, combined with the traits that really count like eye appeal, structure and capacity. An actual birth weight of 85 lbs combine with his adjusted WW of 776lbs. He has tested homozygous polled.

Entry 10

Take advantage of one of the most complete Gelbvieh bulls ever raised by Warner Beef Genetics. A young sire that not only offers a combination of mainstream genetics but is also unique in terms of his design and pattern. Modern, powerful and maternal best describe this bull. His donor dam is co-owned with TJB in Georgia and is still working at the age of 10. Her legacy includes sale toppers in both programs, countless replacement females and several herd bulls all over the country. With all that said, this may be the most exciting bull she has ever produced. As we watch the breed require a bull that will add power back in, here he is – Top 1% for REA with less Birth Weight and more performance than his sire.

There's probably not a better bull than CIRS Trademark 1041YB that exemplifies the 2015 AGA Convention theme. From the "paper & numbers" to phenotype, CIRS Trademark CAN and WILL "Impact the Beef Business with Maternal Influence." You'll find CIRS Trademark's Calving Ease EPD is in the top 15%; Ribeye Area, 10%; Calving Ease Maternal, 5%; Milk 3%; Total Maternal, 2%; and, Yield Grade, 1%.... Maternal Influence impacting the Beef Business! More unassisted calves and greater pounds of RED meat to market. It's true we always say "this may be the best we've raised", but continuous improvement is our goal. When we purchased CIRS Trademark's dam from the Jim Beastrof Ranch, we believed mating her to CIRS Decade would produce an animal with style and function for today's market. CIRS Trademark is just that! A rugged, yet maternally stylish bull with plenty of flex and sound movement. Finally, CIRS Trademark is DNA tested HOMOZYGOUS POLLED and DILUTER FREE! And, of course, he's also genetic defect free! There's no guesswork here. We appreciate your consideration and VOTE for CIRS Trademark. We'll see you in Denver!

CIRCLE S RANCH • CANTON, KS

Entry 13

Extremely balanced, eye appealing young up and coming herd sire. Attractive on the move. Notice his big, square hip, super neat front and structural correctness. Sure to have an impact on the breed.

Genomic enhanced EPDs.

Entry 14

We are offering quite the unique package in this year's Futurity offering. Babe Magnet is one of the first offspring to sell out of CCRO Carolina Exclusive 1230Y plus our tried and true proven DCHD 030L cow family. The DCHD 031T cow is one of the great DCH R126 Roy daughters and out of an incomparable momma cow that has done many great things for our herd and a number of other breeders including offspring DCHD 030P Doc, DCHD 030U Uffda and DCHD 030W Winchester. DCHD 030L, still producing at 14 years old, currently has 5 generations active in our herd. If that's not productive, we don't know what is. Backed by an exceptional cow family, Babe Magnet has the EPD power that any breeder would want. This bull has it all! Babe Magnet is an extremely deep-sided bull that has plenty of length of spine. He has ample amount of dimension and shape down his top and through his rear quarter. To top it all off, he is a well-balanced, smooth shouldered bull that is deep hipped, giving an impressive view from the side. Babe Magnet ranks in the top 1% in weaning weight, yearling weight, yield grade, carcass weight & the top 2% for ribeye. Babe Magnet combines eye appeal, performance plus balanced EPD's into a complete package.

Entry 15

We are proud to introduce PHG Bam Bam B98 as our entry in this years bull futurity. Bam Bam is a calf that has been turning heads since our open house in August, and has gotten plenty of attention since then. His dam was imported into the US from Valley Gelbvieh in Alberta as an open heifer, and is a picture perfect example of a Gelbvieh female. Their herd has been closed for many years - these females being some of the only cattle to ever leave the ranch - and as such her numbers don't reflect the true potential of this female. B98 is a prime example of the type of calves Yukon is producing - deep middled, wide based, and stylish. With an 85lb birthweight and a 799 weaning, PHG B98 is truly a combination bull that gives you the best of performance and calving ease - being homozygous black and polled is just icing on the cake! Put down the paper and take a look at the bull, we're sure you'll like what you see!
