**Saturday, February 21, 2015 || 1:00 PM (CST)**  
**Napoleon Livestock Auction || Napoleon, North Dakota**

## WELCOME TO THE SALE...

### Golden Buckle Gelbvieh

*Dwight and Christina Dockter  
Bailey, Cheyenne, Cierra and Dalton*

4956 41st St. SE, Medina, ND 58467  
701-486-3494 • [gbgelb@daktel.com](mailto:gbgelb@daktel.com)

Dear Cattlemen,

We would like to extend a big thank you to our past customers for your support of our program and invite you to our 2015 Production Sale.

We are a family operation and our children also have their own cattle within our herd so you will notice additional prefixes besides our DCHD prefix.

We had adequate moisture for the pastures to grow this past summer. This in turn helped the calves to come in heavier at weaning. Average daily gains are calculated from the day of weaning to current weights. The bulls have been fed Harvest States Bull Challenger along with free choice hay to ensure good structural development and longevity. This year's set of bulls have been doing exceptionally well by averaging 4.8 pounds/day at catalog time.

All bulls have been DNA profiled by Igenity with all blacks coat tested as well; results noted within the catalog. In addition, a few select bulls have been horn/poled tested.

We strive for problem free calving, excellent disposition and performance in our cattle. A good disposition is a must as most of our cow workers and calf pushers are kids. Our cows have to be moderate framed & able to travel across pastures as they are not pampered. Our cows are proving to be productive and have good longevity as we are seeing up to five generations all still producing in our herd. We were honored to be the home of 22 Dam of Distinction & Dam of Merit cows. All but one of these 22 cows were born & raised here at GBG. We were also listed in the top 20 Dam of Merit and Dams of Distinction Owners and Breeders in the AGA for these elite cows in 2014.

We have been selling replacement heifers by private treaty for a number of years and are including registered heifers in the sale with the commercial heifers available for sale at the ranch. The heifers have been fed chopped hay with some corn mixed in for a very modest gain. We believe in sending replacement heifers out to pasture ready to grow and breed easily in the spring. With this method of feeding the heifers really bloom in the pasture and breed easily.

This is a great time to be in the cattle business and we are happy to visit with you regarding your bull needs, which bulls will work best in your program and to show you the cattle at any time. We look forward to seeing you on sale day.

*The Dockters*

## SALE INFORMATION

### BULL PERFORMANCE INFORMATION:

EPDs, birth weights, adjusted weaning weights are published in the sale book. In addition a select number of bulls were tested for coat color and polled. They are noted as such in the footnotes if applicable. Adjusted yearling weights and scrotal measurements will be available sale day in the form of a supplement sheet.

### FEEDING & DELIVERY:

#### Two year old bulls:

Two year old bulls need to be taken on sale day.

#### Heifers:

Please talk with us if arrangements need to be made regarding the heifers.

#### Yearling bulls: Option 1:

Take your yearling bulls home the day of the sale and receive \$50 off your purchase price. Have your veterinarian perform a breeding soundness exam within 2 weeks of breeding season or before you turn your bull out.

#### Option 2:

Golden Buckle Gelbvieh feeds and cares for the bulls until April 1, provide a breeding soundness exam and delivery or we will work with you on delivery if located outside of ND. Buyer assumes all risk if bulls are left for Golden Buckle Gelbvieh to feed.

### INSURANCE:

Ownership transfers at time of sale. It is recommended that bulls be insured, especially if buyer chooses option 2 in feeding and delivery and the bulls return to Golden Buckle Gelbvieh.

### SEMEN RIGHTS:

The respective owners reserve 50% semen rights on all bulls selling and reserves the right for in herd use of semen from any bull offered for sale.

### VACCINATION/MANAGEMENT PROGRAM:

CattleMaster, 7 Way, and the foot rot shot are given at Spring turnout. Fall vaccinations include: 7way, One Shot, Inforce 3, Bovishield Gold 5 booster, and poured with Dectomax.

### GOLDEN BUCKLE GELBIEH COW HERD HONOR:

The American Gelbvieh Association Herdbook releases Dam of Merit females and Dam of Distinction females for the Gelbvieh breed on an annual basis. Only 3.6 percent of the active cows in the AGA herdbook qualify for Dam of Merit & only 0.8 percent of all active cows qualify for Dam of Distinction. In 2013, GBG had 26% of our eligible cows combined that qualified for Dam of Merit and Dam of Distinction. At Golden Buckle Gelbvieh we raise productive brood cows with longevity!

9	2.6	88	127	28	72	11	-0.14	48	0.64	-0.02	77.1

Homozygous Polled and the top gainer at catalog time with an average of 6.2 pounds/day since weaning. These Carolina Exclusive calves just explode when they hit the feedlot at weaning. We entered a full ET brother, 200B, in this year's Breeder's Choice Futurity and he sold thru the Golden Rule Sale. 200B was sure well received in Denver and made lots of friends and you can see why by looking at this guy. In addition a paternal brother was named the 2015 NWSS Champion Bull. Make sure you look him up on sale day!

# GOLDEN BUCKLE GELBIEH SPRING YEARLING BULLS

CDOC Golden Buckle Gelv Bazinga 203B • Sells as Lot 2.

### Lot 2

**Homozygous Polled, Homozygous Black powerhouse bull of Cheyenne's.** He has been a standout since birth. If you are serious about selling heavy calves don't overlook this guy. He's the heaviest yearling bull in this sale and in the top 3 for gain. In addition he ranks in the top 3% of the breed for yield grade, 5% for total maternal, top 10% for yearling weight, milk & marbling, 15% for weaning and carcass weight. Nothing but greatness from looks, production and on paper!

Non-Diluter, wide topped bull with lots of depth and a great disposition. 133A is in the top 1% of the breed for milk, 2% for total maternal & 3% for calving ease maternal. Lots of maternal traits in this bull out of a Dam of Merit who always has a top end calf. This is a top notch cow family with generations of Dam of Merits.

# AMERICAN GELBIEH ASSOCIATION TERMS AND CONDITIONS

**TERMS:** Terms of sale are cash unless satisfactory credit arrangements have been made by the seller previous to the sale of any animal so affected.

**BIDDING:** All animals sell to the highest bidder. Any disputes or challenges regarding bids shall be settled by the auctioneer and his decision shall be final. Mailed or telephoned bids may be forwarded to the sale management or auctioneer and will be handled with strictest confidence. Prior arrangements for telephone bids at sale time must be made with sales management or the auctioneer. There are no warranties, expressed or implied, by either the auctioneer or seller, except as set forth herein, as to the merchantability or fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for the seller.

**INSURANCE OF PURCHASES AND RISK:** All animals are at the owner's risk and become the property of the purchaser when declared sold by the auctioneer. Arrangements have been made to have insurance available when making settlement.

**ACCIDENTS:** All precautions possible will be taken to protect the safety of buyers and others attending the sale. Nevertheless, no responsibility will be assumed by the auctioneer, sale management or the host farm in the event of accidents or of loss or damage of property.

**HEALTH TESTS:** All animals have been tested and found negative for brucellosis and tuberculosis. The sale veterinarian will assist buyers on health status for specific states and testing for anaplasmosis and blue tongue if this is required for export to Canada.

## **BREEDING GUARANTEES AND DEFINITIONS**

**FEMALES:** Females are guaranteed to be breeders, with the exception of female calves sold at side of dam, injury or disease occurring after time of sale, gross negligence or willful misconduct on the part of the purchaser, females used in ovum transplant after time of sale, females shown competitively after time of sale, and cows with calf at side. Cows represented as being "safe in calf" will have been examined by a licensed veterinarian and are so guaranteed. They are considered breeders without further guarantee. Females with a "due to calve" date in the remarks columns are considered safe in calf. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service. A pasture-bred female is a female that has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull. An open heifer is a virgin heifer that has never been exposed to a bull either through natural service or artificial insemination. An open cow is a cow that has not been exposed to a bull either through natural service or artificial insemination since the birth of her last calf. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

**MALES:** Bulls are guaranteed to be breeders (defined as ability to settle healthy cows by 18 months of age) with the exception of bull calves sold at the side of dam, injury or disease occurring to the animal after time of sale, and gross negligence or willful misconduct on the part of the purchaser. Any guarantees with respect to ability to freeze semen shall be made by separate agreement between the buyer and seller.

**ADJUSTMENTS:** The following adjustments do not preclude the right of buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute. All claims for adjustment or refund must be made in writing either within six (6) months from the time of sale or not later than six (6) months after the animal reaches eighteen (18) months of age, whichever occurs first, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition and the return is in compliance with the health requirements of the state where purchased. The seller shall be entitled a six (6) month trial period in which to prove the animal is a breeder, the seller shall, at his option, replace the animal with another of equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement. Any animal returned will be at the purchaser's risk. No guarantee is given concerning a pregnant female's gestation period or calf's condition. The seller is not responsible for damage caused by foreign bodies after the animal has been sold nor for sickness not apparent at sale time. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of seller prior to calving for a refund of the full purchase price or for another mutually acceptable adjustment. It shall be the obligation of the seller to bear all expenses incurred for transportation of the animal in question to the farm of the seller. Any adjustment provided herein, if selected, shall absolve the seller from further liability.

## **HORNED/POLLED/SCURRED DEFINITIONS AND GUARANTEES**

**HORNED:** An animal with a horn growth affixed to the skull that has or has not been removed.

**POLLED/SCURRED** An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to skull at an older age.

**POLLED:** An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)

**SMOOTH-POLLED:** A smooth-polled individual has no scurs and does not develop scurs later in life.

## **HOMOZYGOUS BLACK HOMOZYGOUS POLLED WARRANTY**

All warranties regarding cattle being homozygous black or homozygous polled, or both, are agreements between the original buyer and seller and extend only to the original buyer. The liability of the seller shall not exceed the amount of the original purchase price and the seller must be notified in writing within 24 months following the date of purchase for this warranty to be enforceable. In the event an animal sold as homozygous black or homozygous polled is determined to be heterozygous for the warranted trait, the seller will make satisfactory replacement or refund the purchase price within a reasonable time. The seller must have the opportunity to inspect the calf in question and, at his cost, blood type or DNA test the calf and its parents and perform such other tests as necessary to confirm that the calf is heterozygous for the trait in question.

**AGA REGISTRATIONS AND TRANSFERS:** Each animal which is catalogued, offered and sold as a registered animal has a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for," the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

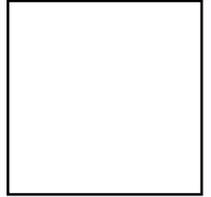

**PURCHASER'S RISK:** Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold, except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to the buyer until unloaded for shipment or until the expiration of forty-eight (48) hours after the sale, whichever occurs first.

**ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the auction block. Such announcements shall take precedence over information contained herein. The sale will be tape recorded for future reference.

**RIGHTS AND OBLIGATIONS:** The above terms and conditions of sale constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Animals resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the parties connected thereto are not covered by the above terms and conditions of this sale. Neither the host farm, auctioneers, nor any other person connected with the management or conduct of this sale assumes any liability, legal or otherwise, except as set forth above.
