

LARSON'S
**LOST
RIVER
LIVESTOCK**

**9TH ANNUAL
PRODUCTION SALE**

SUNDAY, FEBRUARY 17, 2019
2:00 PM (CT) at the farm, Clearbrook, Minnesota

Welcome to our 9th annual production sale. As always, to our past customers, thank you, to those of you looking for the first time we sincerely believe you will find something in these pages that fits your program goals. Again this year, we have retained the services of Mitchell Marketing Service to help organize our sale for a better buyer experience and to market our cattle. Please don't hesitate to contact Chris for an honest opinion of any lot in the sale or for more information.

We are excited to have Dahlke Red Angus join us again this year with a few bred heifers. The Dahlkes have bred Red Angus cattle in MN about as long any program. They are bringing a very maternal set of bred heifers that will flat work in anyone's breeding program. This year we will also sell a set of bulls and bred heifers raised by Ruffy Brook Simmentals, David and Judi Engebretson and Damen Bakke. Dave passed away suddenly on December 17, 2018. Dave raised and sold Simmental seedstock for many years and had a great set of bulls and bred heifers ready for 2019. Local producers, including Scott Anderson and Nick Rankin, have stepped up to help Judi and Damen manage the cowherd. We wanted to do what we could to help Dave's family and offered to include the Ruffy Brook bulls and bred heifers in our sale this year. These bulls are mostly fall born, rugged bulls that can cover a lot of cows.

The rapid changes in genomics and EPDs make bull selection a constantly evolving process. However, physical conformation and structure are still very important and it should be understood that not every male calf deserves to be a breeding bull. We hold high standards for the bulls we select to market. This includes many traits such genetics, birth weight/calving ease, disposition, structural soundness, performance, fertility (BSE performed before the sale), and carcass merit. Only the top 40% of our bulls will be sold on our sale. This does not include only the heaviest weaning and highest performing, but rather the most complete bulls out of the group. The complete package must also include the cow. Once again, we were excited to be in the top 20 owners of Dams of Merit/Distinction. In order to qualify as a Dam of Merit, a cow must wean at least three calves all with a weaning weight ratio of at least 101 and do that while staying in a 365-day calving window, never falling behind. To become a Dam of Distinction, a cow has the same requirements, however she must have produced at least 8 calves. We currently have 30 Dams of Merit and 1 Dam of Distinction. This is clear evidence that our heifer selection program is working as well and will pay dividends in our bull crop going forward.

Once again, we are fortunate to have Jay Elfeldt call our auction, along with two excellent ringmen. Our auction, for those of you who have not been with us, is a 100% video sale taking place inside of our heated, 100-year-old sale barn, with the cattle penned outside. Our auction will also be broadcast on DV Auction for those of you who cannot join us in person. We love to talk cattle, so please call us with any questions, or if you would like to see the cattle please stop by. Again, this year we will have an open house to view the sale cattle during the afternoon of Saturday, February 16, refreshments provided. Finally, we sincerely appreciate your interest in our cattle and your support of our sale. Please join us Sunday, February 17 at 2:00 pm for our sale.

Sincerely,
The Larsons

9TH ANNUAL PRODUCTION SALE

SUNDAY, FEBRUARY 17, 2019
2:00 PM (CT) at the farm, Clearbrook, Minnesota

Please join us February 16, 2:00 pm, for our Open House and to view the Sale Offering.

DIRECTIONS TO THE SALE LOCATION

3 miles south of Clearbrook on Hwy. 92 and 5 miles west on Hwy. 18 or 10 miles east of Fosston on Hwy. 1, 4 miles north on Hwy. 7 and 3/4 east on Hwy. 18

SALE FORMAT

The auction will be held in a heated building, with video monitors set up and each animal's video played while the animal sell. There will be no live lots in the building. All lots will be penned outside for viewing prior to the sale.

VIEWING OF CATTLE

Cattle will be penned and available for viewing Saturday afternoon starting at 2:00 PM, and on sale morning starting at 9:00 AM.

VIDEOS AND SUPPLEMENTAL DATA

Videos will be posted online at www.lostriverlivestockmn.com and www.mms.bz, or mailed upon request. Current weights and measurements will be available sale day.

ONLINE VIEWING AND BIDDING

The sale will be broadcast live online with DV Auction. www.dvauction.com See page 2 for more information.

Alex Acheson, <i>Minnesota Farm Guide</i>	785-366-1185
Kelly Schmidt, <i>Cattle Business Weekly</i>	406-599-2395
Will Fiske, American Gelbvieh Association	540-414-4833
Gary Fike, Red Angus Association of America	785-410-2608

COMPLIMENTARY LUNCH

Complimentary lunch served at 12:00 noon.

LODGING

Piper's Inn, Clearbrook, MN 218-776-2323

HEALTH

Bulls have received all common calfhood vaccinations and been poured with Clean Up II. Bred heifers have been vaccinated with ScourBos 9 and poured with Clean Up II. Please ask us for a complete herd health protocol.

INSURANCE

We strongly encourage all buyers to insure their purchases. Mortality insurance can be purchased through Lindfors Insurance Agency. 218-435-6585

TERMS AND CONDITIONS

Each animal will be sold to the highest bidder. The auctioneer will settle any bid disputes. Animals must be settled for on sale day with cash or check. All animals are the purchaser's risk as soon as sold. Anyone attending the sale does so at their own risk. Lost River Livestock, sale consignors, sale management, and/or any of the sale crew will not be held responsible for any accidents, damages or stolen items. Lost River Livestock will retain a 50% semen interest in all bulls sold.

ANNOUNCEMENTS

Any necessary corrections to the sale catalog will be made sale day. Announcements made sale day and from the auction block take precedence over any printed material in the catalog or otherwise associated with the sale.

SALE MANAGEMENT BY: Mitchell Marketing Service

Chris Mitchell 334-695-1371
20180 NE Roy Golden Road
Blountstown, FL 32424

Larson's Lost River Livestock Discounts

5% Discount on the Purchase of 4 or more bulls.

\$50 Discount on all bulls hauled home within five days of the sale.

DELIVERY

Free delivery within 100 miles of the farm. Consignors will work with buyers to split costs if delivery is over 100 miles.

BOARDING

Bulls not picked up before March 1, 2019 will be boarded and fed until May 1, 2019 at a cost of \$2.50 per day. Bulls left until March will be semen checked again before leaving the farm. Successful buyers are responsible for their animals purchased sale day. We recommend insuring your purchases.

BREEDING GUARANTEE

All bulls are sold as guaranteed breeders and heifers sold as bred. In the event of unsatisfactory breeding performance, either a replacement bull or heifer, or a refund of purchase price or a credit will be provided, when defective bull or heifer is returned to the seller in good health. All females sold as "safe in calf" will be examined and declared safe by a licensed veterinarian within 3 weeks of the sale date.

LARSON'S LOST RIVER LIVESTOCK BULL SELECTION

The bulls we sell in our annual production sale are selected from the top 40% of our calf crop each year. All bulls must meet our quality, performance, birth weight and testicular growth criteria.

Gelbvieh Non-Parent Average EPDs

CED	BW	WW	YW	MK	TM	CEM	YG	CW	REA	MB	FPI

TRANSFER OF REGISTRATION PAPERS

Registration papers will be transferred to the buyer on all registered animals.

BULL PREPARATION, FEED PROGRAM AND AVERAGE DAILY GAIN

Bulls were fed a forage-based ration designed to target 3.25 lbs/day ADG. The test was conducted for approximately 60 days and during this period the bulls exceeded their expected performance. All bulls left on farm after sale day will be placed on a lower energy diet to harden up prior to pasture. We encourage all buyers taking bulls home to continue to feed these young bulls appropriately to ensure continued growth and development.

CALVING EASE STARS

Calving ease stars are listed for all bulls in the sale book. The recommended calving ease for each bull in the sale is based on the recommendations below.

- **1 star:** for use on cows with little to no calving difficulties under standard conditions.
- **2 stars:** for use on cows with little to no calving difficulties under standard conditions.
- **3 stars:** for use on young cows and mature cows with little to no calving difficulties under standard conditions.
- **4 stars:** for use on growthy heifers with little to no calving difficulties under standard conditions.
- **5 stars:** for use on heifers with little to no calving difficulties under standard conditions.

Crossbreeding is smart and easy with Gelbvieh and Balancer®

Crossbreeding has been utilized in the cattle industry for many years and for good reason. Crossbreeding provides several benefits including those seen from individual heterosis, maternal heterosis and overall greater lifetime profitability. Using Gelbvieh and Balancer® genetics in a crossbreeding program adds productivity, longevity and profitability with crossbred cows and hybrid bulls.

Individual Heterosis

Individual heterosis is the improvement in performance by the individual crossbred animal above the average of its parents. Increased calf livability, weaning weight, yearling weight and carcass traits are examples of individual heterosis in crossbred calves.

Maternal Heterosis

Maternal heterosis leads to the combined improvement in traits from the dam that cause increases in the performance of her and of her progeny. Examples of maternal heterosis in a beef cow include: younger age at puberty, increased calving rate, increased survival of her calf to weaning; longevity and pounds of calf

Trait	Effects of Individual Heterosis on Crossbred Calves	Effects of Maternal Heterosis with Crossbred Cows
Calving Rate	+3.2%	+3.5%
Survival to Weaning	+1.4%	+0.8%
Birth Weight	+1.7 lbs.	+1.6 lbs.
Weaning Weight	+16.3 lbs.	+18.0 lbs.
Yearling Weight	+29.1 lbs.	-
Average Daily Gain	+0.08 lb./day	-
Longevity	-	+1.36 years
Lifetime Productivity of Crossbred Cows = +0.97 Number of Calves and +600 lbs. Cumulative Weaning Weight		

Utilizing Gelbvieh and Balancer Genetics in a Crossbreeding Program

Gelbvieh and Balancer cattle excel in traits such as growth, stayability, and productivity. Using Gelbvieh and Balancer genetics in a crossbreeding program can help increase profitability of an operation. See additional pounds and added profit through more efficiency and greater longevity of cows as well as heavier, faster gaining feeder cattle.

Commercial Red Angus ranches and feedyards continue to demonstrate their ability to combine superior genetics with precise marketing to produce Grid Master Award winners. Only the most genetically capable carcass cattle have the ability to produce the quality end product in a high-yielding package.

Cattle enrolled in the Red Angus Feeder Calf Certification Program (FCCP) and Allied Access program will now have the opportunity to aim for even more stringent standards in order to be labeled "Grid Master." Cattle that reach these prestigious goals will no doubt set the standard for carcass premiums on value-added marketing grids.

Lot 1

In each of our sales, the Lot 1 position is reserved for a very special individual and we feel this bull carries that torch. Daybreak F152 exemplifies the type of cattle we are trying to produce: moderate framed, clean fronted, incredibly deep bodied, heavily muscled, level topped, excellent feet and legs, easy going disposition, great testicular development, strong and predictable pedigree, and balanced EPD's. Daybreak F152 checks all of those boxes and we could not be more excited about his future. He's also a BA75, so if mated to high percentage purebred Gelbvieh females, the resulting progeny will still be purebred. Can you imagine the value of a group of purebred Gelbvieh calves with his depth, dimension and softness? The possibilities are endless with this bull and the future is bright.

Skyline F220 is another intriguing New Horizon son with the same sort of depth and power as lot 1, only in a purebred Gelbvieh package. He is long bodied, very deep sided, thick butted and wide at his base. He displays excellent muscle expression and moves very freely on a great set of feet and legs. He is also backed by one of our most prolific cow families, the Rylee line. Skyline F220's young dam is a beautifully designed cow with a moderate frame, great depth and perfect feet. She has been admired by many a visitor and is an incredible producer. She was obtained Dam of Merit status in her first year of eligibility and sports a 368-day calving interval with all of her calves being kept as replacements or sale bulls. With a cow like that supporting Skyline F220, he has unlimited potential as a herdsire.

Compass F215 is a long-bodied calf with a ton of thickness and a great disposition. He also carries an excellent set of balanced EPD's featuring top 30% CED and top 15% REA. Also, 12 out of his 16 traits rank above breed average. As with many other animals in this sale, Compass F215 is backed by an outstanding young dam with a beautiful udder. She was recognized as a Dam of Merit in her first year of eligibility and has sustained a 362-day calving interval with a WW ratio of 104 on 3 natural calves. She is also a product of our embryo transfer program and a daughter of the tremendously popular Angus sire Connealy Confidence. With all of that going for him, Compass F215 should produce those eye appealing calves that are always in demand and daughters with great longevity.

When we first selected New Horizon to use in our AI program, we were looking for him to produce high percentage Gelbvieh calves with depth, power, and style. He has absolutely met all of our expectations. Outpost F101 is a moderate framed New Horizon son with the same sort of depth and width his siblings exhibit. He also brings a very balanced set of EPD's to the table with top 30% CED, top 20% BW and excellent maternal traits with his STAY ranking in the top 30% of the breed. Its not hard to see why his maternal traits rank so high as he is backed by one of our most influential cow families, the Nellie tribe. FOUR STAR CALVING EASE

Moonshine F196 ET is a product of our embryo transfer program and his donor dam may be one of the prettiest and most productive cows we own. Nellie Y5 ET is a direct daughter of the matriarch of the Nellie line, EGL N605 and sired by the prolific cow maker, SAV Bismarck 5682. She is as near to the ideal cow in terms of phenotype as we have. She is tight fronted, huge through her middle, wide hiped, has perfect feet and a beautiful udder. And she has passed these traits on to her offspring, including Moonshine F196 ET. He is very deep bodied just like his New Horizon siblings and brings incredible maternal EPD's to the table. You'll want to keep every female sired by this bull.

LARSON'S LOST RIVER LIVESTOCK BALANCER® BULLS

Lot 6

First Down F12 is the lead off calf in our group of Ditka-sired bulls and for good reason; he is a stud. Great disposition, ton of middle, ton of muscle, level topped and has a great set of commercially relevant EPD's. Top 30% CE, top 10% growth, top 30% STAY and top 20% FPI. His calves will come out easy and grow like weeds, the females will look the part and have excellent longevity, and his feeder calves will top the market. No matter what you plan to do with his offspring, they'll work. FOUR STAR CALVING EASE

LRSF LRL AIR RAID F11 Sells as Lot 7.

Lot 7

If you have a set of heifers and are in need of great calving ease but don't want to sacrifice growth, Air Raid F11 is the bull you're looking for. Take a peek at his curve bending EPD's: top 10% CED coupled with top 35% WW. But his EPD strength doesn't end at just CED and WW, the rest of his EPD profile is extremely strong and balanced with all of his values ranking very near, or above breed average. He's also very balanced from a phenotype standpoint: clean fronted, smooth made, thick butted and deep bodied. FIVE STAR CALVING EASE

Blitz F23 is another strong Ditka son with the same attributes as his siblings. He is wide topped, deep bodied, and has a very nice disposition. And just like his brothers, he maintains excellent calving ease. Check out his top 10% CED and top 10% BW EPD's. His moderate framed dam is also a looker. She owns her name; she is real "Eye Candy." She is clean fronted, deep from end to end, has great feet and has a near perfect udder. She looks to be a strong producer for years to come. FIVE STAR CALVING EASE

Gridiron F108 is a moderate framed, deep bodied calf with very balanced EPD's. Just like his Ditka siblings, he sports excellent calving ease with top 30% CED and top 40% BW. He's also no slouch when it comes to growth traits with his WW ranking in the top 15% of the breed and his YW in the top 25%. His maternal traits are strong as well with top 10% STAY and he is backed by the tremendous Rylee line of females. Rylee U810 is the matriarch of that line and is still producing strong at 11 years old. She has also been recognized as a Dam of Distinction in each of the last three years. FOUR STAR CALVING EASE

Goal Line F72 is an absolute powerhouse. He is our highest performing Ditka son with a 114 WW ratio and still maintains strong calving ease traits with his CED ranking in the top 30% of the breed. He is the definition of a curve bender. He also traces back to our Rylee U810 donor whose influence can be found all over this catalog and our herd. The Rylee cows have been tremendous producers bringing in heavy calves year after year, maintaining excellent body condition and each female has exceptional eye appeal. With that sort of maternal strength behind him, Goal Line F72 will be a great addition to any herd.

Here is a chance to infuse some of our top genetics into your herd. Touchdown F179 is sired by the great Ditka bull and is the natural calf out of our Arianna 77B donor. We purchased 77B as the pick of Gustin's Diamond D Gelbvieh's open heifers through the 2015 National Gelbvieh Sale. She is a direct daughter of Dennis' favorite cow, 32S, and we could not be happier with how she has turned out. She produced a top selling bull for us last year going to Taubenheim Gelbvieh in NE as well as our lead-off bred heifer in this year's sale. The genetics behind Touchdown F179 are as solid as we have here, so buy with confidence. FIVE STAR CALVING EASE

Smashmouth F218 is another Ditka son with exceptionally strong maternal genetics backing him up. He comes from the stylish and very productive line of Nellie females and his young dam embodies both of those traits. She is moderate framed, incredibly wide, has a perfect udder and great feet. Smashmouth F218 sports top-notch maternal EPD's with top 3% STAY and it's not hard to see how he gets this value with the type of cows backing him up. The rest of his EPD profile is strong as well, balancing up calving ease, growth and carcass. He sports top 40% CED, top 25% growth and top 40% FPI. From a phenotypic standpoint he is strong as well with a small head, smooth shoulders, deep rib and great width.

The Ditka calves just keep coming and they don't slow down. Audible F8 is another Ditka son with the same sort of commercially relevant traits: solid calving ease with top 30% CED, outstanding growth with top 10% WW and top 15% YW, great maternal ability with top 20% STAY and solid red meat carcass values with top 15% CW and top 10% REA. Audible F8 is the oldest calf in the pen being born January 12, so he'll have some age on him when you decide to turn him out. For instance, if you turn bulls out June 1, this guy will be just shy of 17 months old. The number of cows these January born bulls will be able to breed will definitely be more than a March or April calf.

Hard Count F38 is a really powerful calf with a ton of width and dimension. He is also incredibly deep bodied and has great muscle expression. He will absolutely put some pounds on calves and they'll have the sort of eye-appeal buyers are looking for. Hard Count F38 also sports great growth EPD's as well as solid individual performance. He achieved a robust 106 WW ratio nursing his first calf mama. His WW EPD ranks in the top 15% of the breed, his YW is in the top 20% and he does all of this while maintaining top 40% CED and BW. And since he's another January born calf, he'll service more cows and produce more high-performance calves.

Shotgun F209 is our last Ditka son in the catalog but he sure isn't last in terms of overall quality. He is a very eye appealing calf with depth of body and thickness. He also sports terrific growth EPD's with his WW ranking in the top 25% of the breed and YW in the top 35%. His maternal traits are also strong with his STAY ranking in the top 35%. And it's not hard to see why his maternal traits are so strong, his dam is a direct daughter of our most productive Red Angus cow, Lakota 9708. 9708's influence can be found throughout our Red Angus cows as well as some of our balancers. The females in that line are exceptional with great feet, perfect udders, tremendous depth and awesome maternal look. Shotgun F209's dam is absolutely one of those cows and she raised a great one here.

When we selected Leachman Certainty to use on our heifers, we hoped he would sire high calving ease, deep bodied calves with strong, balanced EPD's and that's just what we got. Conviction F51 is one of the very top calves in the pen and we are very excited about his future. His depth of body and overall width is hard to beat. And when you pair that with his outstanding calving ease, you get a bull to cover all the bases. Both his CED and BW EPD's rank in the top 10% of the breed, but he's not just a calving ease bull. His WW ranks in the top 35% and his YW in the top 20%. His carcass numbers are also top notch with top 10% REA, top 20% MARB and top 5% FPI. He'll get your heifers bred, they'll calve easy and those calves will grow like weeds. FIVE STAR CALVING EASE

Steadfast F257 represents our only Highly Focused 503C son in the sale. Like his sire, he is super long bodied and has a ton of natural depth. He gets out and moves well with great flexibility and has very nice foot structure. Also like his sire, he features great calving ease with his CED EPD ranking in the top 10% of the breed. His young dam is sired by the incredibly popular Lazy TV Sam and she displays the traits Sam is known for: great calving ease, high growth, very nice feet and a perfect udder. Steadfast F257 is one of the youngest calves in the sale but that didn't slow down his performance as he weaned off with a 105 WW ratio.

Berkshire F207 ET combines our best cow with one of the most popular and impactful sires of recent memory. Leverage sired our top group of bulls last year in terms of overall quality and value. The top 3 sellers were all Leverage sons. And Jo-Leen 9801W is as close to a no-miss cow as we have found. No matter who we have mated her to, it's perfectly clicked. Her natural calf from 2016 sold for \$16,000 to Handel Farms in 2017 and a 2016 born ET son sold for \$9,000 to Taubenheim Gelbvieh also in 2017. And Berkshire F207 ET looks to continue his dam's legacy of excellent offspring. He is heavily muscled, soft bellied and brings an incredible set of EPD's to the table. He ranks in the top 30% for CE, top 10% for growth, top 5% for STAY and top 35% for MARB. And he does all of these things in a purebred, homo black, homo polled package. He rings all of the bells. Buffet F192 ET comes from a flush we bought from C-Cross Cattle Company in North Carolina and we are very pleased with the results. His dam is one of their top cows and when we were presented with the opportunity to buy a flush on a cow of that caliber, we jumped at the opportunity. And his sire needs to introduction. The Leverage progeny are as consistent and high-quality as any in the country. Buffet F192 ET is a very powerful and eye-appealing calf with top end individual growth as well as excellent EPD strength. He is also one of the heaviest calves in the pen, weighing just shy of 1300 pounds on January 12. His calves will come in heavy in the fall and look the part when it comes time to sell.

Iron Man F211 is impressive from the side, but when you get behind him, you'll be blown away. He is as heavily muscled as any bull in the pen and as square hipped as you can make one. And when you factor his dam into the equation, Iron Man F211 sorts himself to the top. His young dam, Nellie B119 is one of our very top cows and a Dam of Merit in her first year of eligibility. With her first calf, she raised a bred heifer we sold at the 2018 ND Golden Rule for \$6500 to Jaime Schimming of Enderlin, ND. Her second calf was a bull who sold for \$5500 bull in our 2018 production sale going Hilltop Farms of Asbury, MO. And with her third calf, she brings in this guy. Buy with confidence here because these genetics are about as strong and predictable as you'll find.

Kane F279 was raised by a very productive cow who brings in a solid calf year after year. She is coming 10 years old this spring but you wouldn't know it by looking at her. She has the look of a cow much younger and hopefully has many more productive years ahead of her. She is long bodied, deep sided, strong topped and has absolutely perfect feet. Kane F279 exhibits those same sorts of commercially relevant traits. He is very eye appealing with great length of body, a level top and great muscle shape. He also exhibits the same sort of strong calving ease as his mother with top 20% CED and top 15% BW. FOUR STAR CALVING EASE

D40 Maternal sister to Lot 24.

DeWALT F148 is one of the strongest red, high percentage Gelbvieh calves we have raised to date. We used his sire to produce high percentage red calves with eye appeal and sound EPD's and we were not disappointed. DeWALT F148 leads this group of Powerbuilt sons and for good reason. He is moderate framed, level topped and has incredible muscle expression. He gets out and moves freely and comes down on a great set of feet. His young dam is also one of our top cows. She stems from the highly maternal line of Nellie females and sports a 96 BW ratio coupled with a 109 WW ratio and a 106 YW ratio. She can flat out produce. DeWALT F148 brings a very balanced and impressive set of EPD's to the table as well with 15 out of 18 traits ranking at or above breed average. FOUR STAR CALVING EASE.

If you're looking for a red purebred Gelbvieh bull to add some depth of body and muscle shape to your herd, consider Craftsman F177. He is soggy bellied and maintains great flexibility on the move. He is backed by a line of high growth, high maternal cows. The Snazzy line of females traces back to the Snazzy 114L cow we purchased on the Sannes dispersal and what an addition she was. She was very stylish with a ton of power and muscle and has passed those traits down to her progeny. Craftsman F177 is proof of the strength of those traits with his top 30% YW EPD and top 20% STAY.

Makita F199 is another powerful and eye-appealing Powerbuilt son raised by an excellent Nellie female. His Dam of Merit mama is also the granddam of lot 26, so you can be assured these genetics work. Makita F199 balances up very nicely with a heavy muscled rear one-third, a thick top and great depth of body. He also brings a balanced set of EPD's along with great individual performance to the table. His WW and YW EPD's both rank above breed average and he achieved a 110 WW ratio off of only mama and grass. With all of this going for him, Makita F199 should produce an excellent set of red, high percentage Gelbvieh calves to top any market.

Milwaukee F200 is built very similarly to lot 28 with great thickness and muscle shape, a ton of length and great foot and leg structure. These are two bulls that could go out in a pasture together and sire a consistent, eye appealing, high growth set of calves that will be the envy of your neighbors. Milwaukee F200 has done very well since weaning gaining nearly 4 pounds a day since early October. His dam has been a consistent producer for us, maintaining a 362-day calving interval.

Powerpoint F239 is tremendously long bodied calf with a ton of muscle shape and depth of body backed by a very consistent Lakota female. Powerpoint F239's dam has been an excellent producer for us with 3 other bulls making our production sales, most recently an excellent bull selling to Sidney Greenwaldt of Aldrich, MN in 2017. She is also a direct daughter of the superb Lakota 9708 donor who produced natural calves until she was 17 years old. The longevity and maternal power behind this bull is second to none. Powerpoint F239 will produce good looking calves that will make you money and his daughters will become productive members of your herd with serious longevity.

Cummins F22 is one of those bulls you wish you had a whole pen of. We try to produce calves with great depth of body, heavy muscle and great eye appeal. And we feel Cummins F22 does all of these things to the utmost degree. His depth of rib and dimension are hard to beat and when you get behind him, you'll really appreciate his overwhelming thickness and muscle expression. He's also backed by a tremendous young cow who looks to be on her way to our donor pen. We actually won her when she donated to the ND Gelbvieh Association as part of the Golden Rule Sale in 2017. Al Gustin of Gustin's Diamond D Gelbvieh donated her and he said he wanted to offer a female that would be top end female in any herd and he did absolutely that. Cummins F22's dam is a tremendous young cow and she has brought a tremendous bull to this sale.

Architect F58 is an absolute stud. He was raised by a very moderated framed first calf heifer and weaned off with a 111 WW ratio. We weren't able to weigh his dam but with an educated guess, she probably weaned off two-thirds of her body weight. Now that's some serious efficiency and power. Architect F58's growth EPD's are equally as powerful with both his WW and YW ranking in the top 10% of the breed while maintaining breed average calving ease. When mated to cows, this guy will sire calves that come out easy and end up being some of your heaviest calves in the fall.

This bull embodies everything we are trying to produce in our Balancer cattle. Cash Flow F34 is tight fronted, long necked, smooth shouldered, deep bodied, explosively muscled and has incredible scrotal development. He is also one of the heaviest calves in the pen, coming in at 1300 pounds on January 12. He just does everything right. We bought this guy's dam on the Schroeder Ranch dispersal sale in 2015 based on her excellent production record and her stunning phenotype. And she has not disappointed. She is a 5-time Dam of Merit and has maintained a 105 WW ratio and a 104 YW ratio. Cash Flow F34 is a bull you'll need to find on sale day and you'll be happy you did.

Slump Buster F53 is another ¾ Red Angus x ¼ Gelbvieh Profitbuilder son who covers all of the bases. He is a phenotypic standout with great length of body, incredible stoutness and is super deep bodied. He also has done really well since weaning. He weighed 1265 pounds on January 12 and has gained 4.53 pounds per day since October. All of our Profitbuilder calves are very easy fleshing and Slump Buster F53 is no different. He also features great performance EPD's with both his WW and YW ranking in the top 15% of the breed.

For a bull to make it to the top of our list, he needs an excellent cow backing him up. And for Benchmark F56, that's just the case. His dam is an ET daughter of the matriarch of the Nellie line, EGL N605 and has been an excellent producer for us. She has produced two daughter who are productive members of our herd and with Benchmark F56, she produced her best calf to date. He has been a favorite of ours since he was young and has had the "herd bull look" since turn-out. Each time we checked through his pasture, he instantly grabbed our attention and he has never stopped. He is so heavily muscled, deep bellied and wide bodied, he'll become one of your favorites as well. He also sports an excellent set of balanced EPDs with top 40% CED, top 15% BW, top 25% WW, top 20% YW, top 2% STAY and top 20% MARB. He checks all of the boxes and will definitely need your attention on sale day. FOUR STAR CALVING EASE

Bull Market F67 is a moderate framed calf stamped with the "Profitbuilder look." All of the Profitbuilder calves we have been cut from the same mold; small headed, smooth shouldered, deep bodied and incredibly thick from end to end. Bull Market F67 fits into each of those categories and excels in each one. He may not be the biggest framed calf in the pen but he's certainly one of the widest butted and soggiest bellied calves. He will definitely catch your eye sale day.

Premium F36 rounds out our Profitbuilder sired Balancer calves and has that smooth, eye-appealing look all of his siblings' display. He is smooth shouldered, long bodied, incredibly deep bodied and has excellent muscle shape when you get behind him. His EPD's also balance up very nicely with top 25% BW, top 35% WW, top 25% YW, top 10% STAY and top 10% MARB. And remember, since this guy was born in mid-January, he'll have some extra age once its time to turn him with cows.

LARSON'S LOST RIVER LIVESTOCK RED ANGUS BULLS

Lot 44

Record Year F50 ET starts off a tremendous set of full ET brothers sired by the exceptional Profitbuilder bull and out of our prolific Lakota 33R donor. Lakota 33R has been a top producer for us for many years. She has brought in sale topping bulls, like her high selling bull on our 2016 sale, and herd-leading females, like Lakota Z152, the donor dam to lots 48 and 49 in this sale. The maternal power behind these 4 ET brothers is outstanding. Record Year F50 ET is a very stunning calf, as can be seen from his picture. He is the most moderate framed calf of the group and is made very smoothly.

LRL TRUST FUND F57 ET Sells as Lot 45.

Lot 45

Trust Fund F57 ET just does so many things right. He is packed with red meat, tremendously wide bodied, has an excellent hair coat and gets out and moves with flexibility and softness. From a phenotype standpoint, he is the kind of bull we are trying to raise. And just like his full ET brothers, he backed by one of our most productive, consistent and predictable pedigrees. He features strong EPD's as well with 9% WW, top 15% YW, top 9% MARB, top 2% CW and top 21% REA. His growth and carcass values are outstanding all while maintaining solid calving ease traits with breed average CED and BW. Trust Fund F57 ET stands right at the top of our bull pen and we are very excited for his future.

Capital Growth F73 ET is a bigger framed bull with a ton of performance and style. He is super long bodied, deep sided, wide butted and has great testicular development. He is also one of the heaviest calves in the pen, coming in at just she of 1300 pounds on January 12. He has also put on weight very well since weaning, gaining 4.35 pounds per day since October. Imagine a group of his calves in the pen come weaning time: a ton of performance with the ability to eat and put on weight. And then when it comes time to sell, they have the look and the size buyers demand. Capital Growth F73 ET will absolutely put turn some profit.

Money Market F64 ET, just like his brother lot 46, will put some serious pounds on calves. He is the heaviest calf in the pen and can really put the pounds on. He has gained 4.7 pound per day since October and looks the part of a breeding bull. Couple his performance with his early birth date of January 21, 2018, you get a bull who'll be able to cover quite a few cows come June and July when he's turned out. Those extra cows he can cover compared to a younger bull mean more calves and more money in your pocket.

Spartacus F131 ET is the first of our 5L Defender 560-30Z sons and he does not disappoint. We decided to use 5L Defender after seeing numerous high-selling sons on 5L sales and we admired those sons from both a phenotype and EPD standpoint. The three sons we have all moderate framed with great calving ease and heavy muscle. Spartacus F131 ET is one of our favorites. He is dark colored, smooth shouldered, level topped and has tremendous muscle expression. He also sports excellent calving ease EPD's with his CED and BW in the top 20% of the breed. His carcass traits are also strong with top 18% MARB and top 34% REA. FIVE STAR CALVING EASE

Caesar F185 ET is a full brother to lot 48 and is built very similarly. He is moderate framed, deep bodied and has a smooth design that indicates he will work well on heifers. Just like his brother, he sports top 20% CED and top 21% BW. His donor dam, Lakota Z152 has been a tremendous producer for us, raising high selling bulls and some of our best replacement heifers. With the flush these calves come from, Z152 produced 32 number 1 eggs. That is the best any of our cows have ever done and one of the best flushes we have ever heard of. With that sort of production behind Caesar F185 ET, you'll want to keep every daughter. FIVE STAR CALVING EASE

Genomic enhanced EPDs.

We are starting out our bred heifer offering with an absolutely outstanding package. Arianna E118 ET is purebred Gelbvieh, homo black, homo polled and exhibits tremendous EPD strength with top 15% CED, top 4% growth, top 20% maternal traits and excellent index values: top 10% \$COW, top 3% FPI and top 10% EPI. She is also very attractive from a phenotype standpoint: clean fronted, long bodied, deep sided, and moves out with ease. Her dam was our pick of Gustin's Diamond D Gelbvieh's open heifers in 2015 and has turned into a maternal powerhouse for us with 5 bulls making our production sales, 4 daughters being kept as replacements and averaging 10.5 embryos per flush. E118's full brother sold last year to Taubenhiem Gelbvieh for \$8,000. Arianna E118 ET stands right at the top of our program and could very likely find her way into the donor pen for her new owner. We are very excited about the future of this female. She sells bred to JRI Optimizer 148A4, due January 25, 2019 and will have a calf at side sale day.

Genomic enhanced EPDs.

Rylee E30 traces back to one of our most influential donors, Rylee U810. U810 has been flushed numerous times averaging roughly 20 eggs per flush. She is as productive as she is pretty. She has also been recognized as a Dam of Distinction the last three years, meaning she has maintained a regular calving interval and the average weaning weight ratio for all of her calves is over 101. Rylee U810 has maintained a 374-day calving interval, while being flushed and has a lifetime WW ratio of 103. When you consider all of this, you can bet Rylee E30 is going to be one heck of a cow. She calved January 14, 2019 with a heifer calf weighing 70 pounds sired by JRI Optimizer 148A4 and is an outstanding mother with a great udder and sweetheart disposition.

DDGR DDGR ARIANNA 77B Dam of Lot 55.

Bailey E58 is a powerfully designed purebred Gelbvieh female with great performance and breed leading carcass strength. Her WW EPD ranks in the top 1%, YW top 3%, CW top 30%, REA top 5%, MARB top 40% and her feeder profit index ranks in the top 2% of the breed. She will bring in those heavy, top end calves year after year, just like her mother. Her Dam of Merit mama has won that award in each of her two years of eligibility and maintains a 105 WW ratio. Bailey E58 calved January 20, 2019 with a bull calf sired by JRI Optimizer 148A4. This guy is going to be one of those top end calves and definitely one of the heaviest come weaning.

Naomi E81 is a moderate framed, high percentage Gelbvieh female backed by an outstanding cow. Her dam has been recognized as a Dam of Merit in each of her first three years of eligibility and carries an excellent production record. She has maintained a 359-day calving interval over 5 calves and a 108 WW ratio. This type of production is what you can expect from this beautiful female. Naomi E81 also features an excellent set of balanced EPD's highlighted by top 20% BW and top 10% REA. She calved January 17, 2019 with twin bull calves, one weighing 63 pounds and one weighing 62 pounds, sired by JRI Optimizer 148A4. We took one twin off and grafted it on to lot 82 who lost her calf.

Blackstar E60 is another very powerful and extremely deep bodied female sired by the tremendous Leverage bull. She is super long bodied and looks to bring in one of the heaviest calves every year. Her actual performance, as well as her growth EPD's are hard to beat. She weaned off with a 110 WW ratio and both of her growth EPD's rank in the top 5% of the breed. She also maintains solid calving ease for a female with as much growth as she has and incredible maternal traits with her STAY ranking in the top 2% of the breed. She is bred to LRL Spotter D73 ET, due February 23, 2019 with a bull calf and may just have him on the ground by sale day.

LRSF LRL BLACKSTAR E60 Sells as Lot 59.

JRI OPTIMIZER Service sire of Lots 57, 58.

Here is one of our favorite red heifers we have ever sold. Heather E156 is an absolute stunner. She is clean fronted, huge through her middle and has great muscle expression. She gets out and moves very freely and looks to be setting down a perfect udder. All of the Apollo daughters we have calved out have had excellent udders and great mothering ability and Heather E156 looks to be no exception. She is also backed by a very functional line of cows, the same line that is behind lot 34 in this sale, who is one of our favorites. She sells bred to DDGR Coach 57E, due March 5, 2019 with a purebred Gelbvieh bull calf who will absolutely turn some heads.

COACH 57E Service sire of Lots 60, 61.

Lakota E147 is another high-performance Apollo daughter with a ton of length and muscle. She backed by the exceptional line of Lakota females and looks to carry on that maternal power. She is setting down a very nice, tight udder with small teats and should have some serious longevity when you consider the matriarch of the Lakota line, 9708, had calves until she was 17 years old. Lakota E147 sells bred to DDGR Coach 57E, our new purebred Gelbvieh herd sire who we purchased from Gustin's Diamond D Gelbvieh as their high seller last year. We are very excited about the future of this bull. Lakota E147 is due January 25, 2019 and will have a purebred Gelbvieh calf at side sale day.

If you're looking for a high percentage Red Angus female who is moderate framed and super wide bodied, you'll need to check out this girl. Lakota E215 is so well made and an absolute sweetheart. She is very feminine fronted, huge bodied and stands on excellent feet and legs. There are many high-quality individuals in our herd and on this sale backed by the Lakota line, and Lakota E215 is as good as any. She calved January 14, 2019 with a bull calf weighing 71 pounds sired by WFL Merlin 018A and is a terrific mama with a perfect udder. Her 88% Red Angus bull calf looks to be special as well.

Blackstar E120 is one of the deepest bodied heifers we are offering this year. When Chris was out evaluating our sale cattle this fall, he picked her out right away and was very excited to find out we were selling her. We hope you find her as appealing. She also features very strong calving ease EPD's with both her CED and BW ranking in the top 10% of the breed. When you combine that sort of calving ease with her natural depth and power, you end up with a female that can do a lot of things. She calved January 13, 2019 with a bull calf weighing 69 pounds sired by KM Broken Bow 002, an ABS Global sire known for his high calving ease, balanced growth and very attractive progeny.

Snazzy E132 is a high-performance daughter of Blackhawk 10B with a level top and great muscle expression. She is also backed by the excellent line of Snazzy cows whose influence can be found all over this catalog as well as our entire herd. The Snazzy line has been a great addition to our herd bringing in great performance and tremendous natural muscle shape and dimension. Snazzy E132 also sports great performance EPD's with top 25% WW and YW. She sells bred to LRL Spotter D73 ET, due March 7, 2019 with a heifer calf.

KM BROKEN BOW 002 Service sire of Lots 70, 73.

Jillian E251 is very attractive female with incredible depth of body and a perfect udder. She gets out and moves very nicely with great flexibility and has the body type that indicates great longevity. She calved January 13, 2019 with a heifer calf weighing 66 pounds sired by KM Broken Bow 002. Even though she's young, this calf looks to be the front pasture kind of female with a tight front end and a wide body. She'll almost certainly be a keeper.

Lakota E188 is one of our favorite Red Angus females this year. She is moderate framed, level topped and has tremendous depth of rib. She is also a direct daughter of our prolific Lakota W1 donor. With one flush, W1 put 4 bulls on our sale last year, an open heifer on the MN Great Northern in 2017 going to Jacobson Red Angus and a bred heifer on the Great Northern this past December going to Lazy J Bar Red Angus of SD. With that kind of maternal power backing up this female, you can almost guarantee Lakota E188 will be a top producer for her new owner. She also sports excellent maternal EPD's with her Herdbuilder index ranking in the top 12% of the breed. She sells bred to our Red Angus herd sire LSF KCC True Grit 6619D, due March 3, 2019, however we were unable to determine the sex of the pregnancy.

LRL E94 Maternal sister of Lot 74.

Dawn E214 is another moderate framed, deep bodied purebred 1A Red Angus female. She has developed a very nice, functional udder with small teats and great suspension. She also features solid index values with both her Herdbuilder and Gridmaster ranking above breed average. She calved January 22, 2019 with a heifer calf weighing 76 pounds sired by 5L Bourne 117-48A. 5L Bourne semen is in high demand on the open market, selling for \$50/straw. His progeny has been topping sales all over the country. And even though she is young this wide-bodied heifer calf looks like one that will make her way to the top of the replacement pen.

Lakota E80 is a very nicely designed Profitbuilder daughter and we can't say enough good things about these females. They are stamped with the "Profitbuilder look" and Lakota E80 is the same way. She is long bodied with great depth and a wide base. She has set down a beautiful udder with plenty of milk and is nursing a great calf. She calved January 20, 2019 with a bull calf weighing 62 pounds sired by WFL Merlin 018A. She could not be a better mother and her calf looks to be one worth watching as he develops.

DAHLKE RED ANGUS FEMALES

We would like to thank the Larson Family for allowing us to consign a select group of bred heifers again this year. We value our friendship and look forward to continuing this opportunity for years to come. We pride ourselves in producing quality females that are profitable, continuing to emphasize on calm dispositions, sound feet, trouble free udders and high fertility resulting in females with great longevity. Feel free to stop by our farm just north of Bagley any time before the sale or call if you have any questions on these females. We look forward to seeing everybody again this year.

Sincerely,
Dahlke Red Angus

Rosie 58E is a feminine made granddaughter of our Rosie 230J cow that is the foundation cow of the two Rosie females we have been flushing. 58E's dam is dark red with a beautiful udder that produced a heifer we sold a couple years ago on the state sale for \$5,000. The service sire is a bull we are excited about, ranking in the top 10% Herdbuilder, 5% for calving ease and top 1% WW, YW, ADG & Gridmaster.

Pasture exposed 6-1-18 to 7-5-18 to Dahlke Deep N Wide 35E Reg#3756579 due 4-2-19.

DAHLKE ROSIE 58E Sells as Lot 85.

RUFFY BROOK SIMMENTAL AND TRIBUTE TO DAVE ENGEBRESTON

The cattle on the next few pages are owned by Ruffy Brook Simmentals, Dave and Judi Engebretson and their grandson Damen Bakke. Dave passed away suddenly on December, 17, 2018. Dave sold bulls both in conjunction with a local producer and by private treaty for many years and his love of Simmental cattle was always evident. Even greater than the pride in his cattle, was his pride in his grandson. Dave helped foster Damen's love of livestock and taught him to be a caretaker of cattle. That pride was perhaps most evident at the county fair where Damen and Dave exhibited Simmental cattle. Although Dave appeared outwardly exasperated with the entire affair at times, a close observer couldn't help but notice the tremendous joy he derived from helping and watching Damen succeed with his projects. Dave understood the impact that caring for livestock has on the development of a young man and that effort is clearly evident in Damen.

Dave's presence will be sorely missed both in the ag community and the community at large. Although Dave was a very quiet man, the quality of his livestock continues to speak for itself. While no one knows what the future will hold, we hope that Ruffy Brook Simmentals continues to be part of our industry in the future. We are confident that Damen will represent these cattle to the best of his ability. If you have any questions about the cattle on these pages, please feel free to call any of us, and please stop by anytime to look at them.

Dave Engebreston and his grandson.
