

Breeder's CHOICE

Gelbvieh Bull Futurity

SATURDAY, JANUARY 11, 2020

Held in conjunction with
National Western Stock Show • Denver, Colorado

*23rd
Annual*

Breeder's CHOICE

Gelbvieh Bull Futurity

GENERAL INFORMATION

The Breeder's Choice Bull Futurity has been initiated by Gelbvieh breeders and supporters to increase participation in the National Gelbvieh Show, the National Gelbvieh Sale and to identify the most useful young sires in the Gelbvieh breed. The sponsor of the annual Futurity will be the Breeder's Choice Bull Futurity, Inc., a non-profit organization, not associated with the American Gelbvieh Association. The Futurity winners will be selected by scored balloting of the participating breeders members. Ballots must have a different bull in 1st, 2nd, and 3rd positions. Ballots must include all three positions.

The consignor of the Futurity winner shall receive the greater of approximately 80% of the net futurity funds or the net proceeds from the sale of the bull in the National Sale . Two runners-up will be identified to receive approximately 10% respectively of the net futurity funds.

The Futurity winner will be sold in the National Gelbvieh Sale. The lesser of the net sale proceeds of the winning bull or the net futurity proceeds will be given to one breeder/member who will be selected by a random drawing at the Futurity Social on Saturday night. Each Futurity breeder member will receive 20 (twenty) units of semen from the winning bull.

The voting will be held at the National Western Stadium Arena on Saturday, January 11, 2020 at approximately 10:00 am. The top 3 vote winning bulls in the initial voting will come back to the arena for a second voting to select and announce The Breeder's Choice Gelbvieh Bull Futurity Champion.

Breeder's Choice Gelbvieh Bull Futurity drawing will held at the Double Tree Hotel Saturday night, January 11, 2020, at the Breeder's Choice Futurity Social.

The 2020 Futurity is limited to 53 breeder memberships. We are selling 2 memberships during the Futurity Events Social at the Double Tree Hotel. Queen of Hearts and 7 of Clubs sell prior to the drawing.

All bulls entered in the 2020 Breeder's Choice Gelbvieh Bull Futurity have been DNA tested for HD Genomic EPDs and are tested for the following genetic defects: AM; NH; CA; and DD. The winning Breeder's Choice Futurity bull is AI qualified and all tests have been completed to meet the AGA requirements for AI sires.

Futurity Champion Bull **sells in the National Gelbvieh and Balancer® Sale**

**Sunday, January 12, 2020 at 6:00 PM (MST)
NWSS Arena, On the Hill, Denver, CO**

Futurity Final Events

Entry 1

RWG Fudge 8442 is balanced in design, with clean lines, refined in his skull, yet powerful in rib shape and muscle mass. He is sired by the record breaking RWG Right Combination 5506 who quickly made his mark in our breeding program producing high selling sons and highly productive daughters. His dam RWG Goodnight 5515 is a young female with donor potential, she's got a text book udder and broody in her hip and body mass yet sharp fronted. Her cow family has set a strong reputation for their calving ease and maternal strength. "Goodnight cow family" sons are always popular in our bull pen. Fudge's phenotype speaks for itself, his genotype makes him even more interesting as he offers a very balanced look across the board. This should allow him to be properly mated to a wide range of female bases and ideal for use creating the next set of purebred or balancer seed stock.

Hilltop Farms is proud to present HTFB Mr. General Lee G903 as our 2020 Breeders Choice Bull Futurity entry. General Lee is a bull that is good on the move, eye appealing and comes in a well balanced package. There is no doubt this 88% bull is not only easy on the eye, he to on paper is just as impressive as he ranks in the top 15% of the breed for yearling weight epd. He is sired by our current leading red herdsire HTFB Mr. Bruce Almighty B419 who certainly stamps his offspring with extra power and muscle shape along with added length of body. HTFB Ms. Rachel Y72 is a dark red very attractive clean fronted female that certainly knows how to raise the good ones. Be sure to look up General Lee in our stall in the Mile High City. Thank you for your consideration. Hilltop Farms is committed to raising quality seedstock.

Born on February 8th, 2019 at 89 lbs., DVE Davidson Blackgold 46G has tested homozygous polled, homozygous black, and has an adjusted weaning weight of 814 lbs. Big hipped, long sided, with ample testicular development, mass, and bone, make for an ideally structured and absolute herd bull potential. Look for his progeny to be high yielding and carry an outcross pedigree. All highly heritable traits, with the bonus of a super disposition. Raised in an area where walking is essential to getting grass and water, his Dam too, has been a steady contributor, having 11 calves naturally. She has produced for our own program, preferred replacement females, herd bulls such as our herd bull DVE Davidson Bamford 36A, and high selling heifers. His Sire, DVE Davidson Crowell 175B, a son of our herd bull Navaho, has contributed stellar replacement females such as DVE 113D, DVE 111E and herd sires like our new herd bull DVE Davidson VIP 84E.

This beef packing machine homozygous polled 94% purebred Bolton Pay Day 45C son offers you old school Gelbvieh fertility and longevity genetics that made this breed great. JRI Bottom Line 254G9's fertility-plus/calf raising machine 7-year-old dam JRI Clementine 254Z8 has been honored as a Dam of Merit female in every year of eligibility (2016-2019). Clementine possesses a super teat and udder system and her Dam of Merit honors come as no surprise as JRI Bottom Line 254G9 posted a whopping 950 pound actual weaning weight. Rest assured, the fertility and longevity is bred-in as Bottom Line's honored Dam of Merit maternal grandam JRI Ms Extra Sugar 254N72 ET produced babies for 15 years and when Extra Sugar was 15 years old her powerhouse bull calf 254E272 posted a scale busting 1,075 pound actual weaning weight. Here is a very complete Homo-Polled, diluter free, Powerbuilt son! He is out of one of our top producing cows! His full sister won the Heifer futurity in Louisville a couple years ago and his full brother is our lead herd sire and a previous runner up in the Bull Futurity. This bull has the look, power, and is very complete to work in about any herd. We would appreciate your consideration on this bull. He's already passed his BSE!

This dark red Powerbuilt son is a special one. To combine this much power into one animal with a big middle, that will still move great, with a look everyone wants is hard to do! He's Homo-Polled and will flat change a program when he is used. We feel this bull is a breed changer and can be used on about any percentage of cattle! We would appreciate your vote on this exciting herd sire prospect! He's already passed his BSE!

We are proud to bring TAU Godspeed 196G ET forth for your evaluation. He is the combination of many great pedigrees within the breed. His dam, our donor Ms Gunnison 028X has done a magnificent job producing multiple high sellers and replacement females for our program and his sire JRI Secret Powers needs no introduction. We feel that Godspeed has all of the essentials to make a high quality A.I. sire within the Gelbvieh breed. 196G is built square and sound at the ground. He's soggy middled and packed full of meat and muscle, and from the profile he provides a level top and square hip. We feel that when you study him on paper you will be even more impressed with the fact that he ranks in the top 2% of the breed for ribeye area and top 10% of the breed for marbling. Godspeed provides a powerful and balanced phenotype, an attractive EPD profile and a bulletproof pedigree. He is the cattlemen's kind, and we feel that he has a bright future with in the Gelbvieh breed. Come check him out in the yards in Denver.

Prairie Hills Gelbvieh is excited to introduce PHG Guardian G16 as our nomination in the 2020 Futurity. Guardian is a calf that has stood out all summer for his width and depth of body. He weaned off in October at an actual 928 pounds, for an 836 adjusted weight, and he continues to mash down the scale while maintaining an acceptable frame size. On paper he is incredibly balanced, with his carcass numbers in the top 25% of the breed. Our Paycheck calves have topped our sale for the last two years and it's because they are stamped like Guardian. He comes backed by a solid mama cow that will be an outcross to many programs. Her first calf was named 2015 Champion Balancer Female at Canadian Agribition, and a full brother was our 2019 Futurity nomination until he was injured. If you're needing to add rib, quarter, and depth in your cattle, while keeping your EPD's between the guard rails, you need to give Guardian a hard look!

It is a privilege for ProHart Seed Stock to be nominating a bull from our breeding program. Gunslinger's pedigree is packed with great Gelbvieh breeding programs. His sire, BDCG DC 401 A4 ET was selected out of the Post Rock bull sale and has given our program powerful growth and females that are making their mark as producing matrons. 401 A4 ET sired a full brother to Gunslinger, ProHart Denali 613D who was Winter Bull Calf Champion at NWSS 2017. Denali was the talk of the barn that year and went on to be the high seller in the Pot of Gold Bull Sale. His grandsire, Chief Executive 10U1, was runner up in the 2009 Breeder's Futurity. This is combined with a line of tremendous female pedigree. The DARC cow needs no introduction to Gelbvieh enthusiasts. The top producing donor and high selling cow out of the Tom Rea dispersal, she continued on in the Dawson Creek and Post Rock ET programs. ProHart Donna 413B comes from one of ProHart's most productive cow families. 413B is a daughter of Flying H Mr. 184U 316Y and has stacked our herd with sound and high producing females. Donna's four calves have a weaning ratio of 117, which includes Gunslinger's 846, 205 weaning weight. Gunslinger won't disappoint; visually appealing, soundly made, correct patterned, and deep ripped. With 11 of his EPD's above breed average, you won't find one as consistent as this guy. Be sure and evaluate all aspects of this candidate.
