

11<sup>th</sup> Annual Sale

# Genetic POWER

Gelbvieh and Balancer® Bull Sale

**SATURDAY, MARCH 14, 2020 • 1:00 PM CST**  
SPRINGFIELD LIVESTOCK MARKETING CENTER, SPRINGFIELD, MO

*62 Gelbvieh and Balancer® Bulls*

# *Genetic* POWER GELBVIEH & BALANCER® BULLS

## **Bull Retirement Program**

J&K Gelbvieh Farm, Inc., Ertel Cattle Co and Kittle Farms at 19 Oaks (Dalton Forrester) are offering a \$200 premium above market for the retirement of your old bulls. To qualify for our Bull Retirement Program, bulls must be retired by Genetic Power sale day with proof of your bull retirement provided. Call J&K Gelbvieh Farm, Inc., Ertel Cattle Co or MMS for complete details.

## **Quality of Bulls Selling**

J&K Gelbvieh Farm, Inc., Ertel Cattle Co and Kittle Farms at 19 Oaks use almost exclusively AI sires in their breeding program. The sale offering includes bulls produced from embryo transfer, AI and natural breeding from many of the top sires in the Gelbvieh breed. As you read the pedigrees, you will also see the dam's of the bulls selling are almost exclusively result of AI and embryo transfer. All programs sell females nationwide to many purebred breeders that are mates to the bulls selling.

## **First Breeding Season Guarantee**

Buyers of all bulls selling for \$3,000.00 or more that are injured the first breeding season, will have credit with the respective seller at the value of the purchase price minus salvage value. Contact us promptly so the decision to return the bull to us or to sell the bull by the buyer may be made. Breeding season is defined as the 90 day period following the first turnout of the bulls. Credits must be used on the purchase of the same breeder's bull. No warranty shall exceed the original purchase price of the bull. In case of death in the first breeding season, a 25% credit toward the purchase of another bull will be provided by the respective seller. Buyers who choose to freeze semen on a bull purchased in Genetic Power prior to or during the first breeding season has the warranty fulfilled with the semen you froze.

## **Bull Development**

Spring bulls were developed and managed in the same location. Bulls were fed on hay/silage/grain ration to grow and maintain at an optimum ADG. These bulls have been fed and managed as one group since October.

All fall bulls were developed and managed by the respective owners. Bulls were fed on hay/silage/grain ration to grow and maintain at an optimum ADG. After yearling development, fall bulls have been fed to maintain growth and performance for optimum breeding for the new owner.

## **Health**

All bulls selling have passed a complete breeding soundness exam and sell as guaranteed breeders. Health papers and semen evaluation papers are available on all bulls selling. Scrotal measurements will be available for all bulls selling on a supplement sheet on sale day. All bulls have been tested negative for BVD/PI3.

## **Sight Unseen Purchase Guarantee**

All bulls sell under a sight unseen purchase guarantee as long as you contact Mitchell Marketing Services or the respective owners to get your information on the bulls of your interest. MMS or the respective owners must handle your purchases for sight unseen guarantee.

## Gelbvieh and Balancer® Bull Sale

**SATURDAY, MARCH 14, 2020 • 1:00 PM CST**  
SPRINGFIELD LIVESTOCK MARKETING CENTER, SPRINGFIELD, MO

### *Sale Day Phones*

Sale Facility	417-869-9500
Jerry Wilson	618-521-8620
Ginger Ertel	660-234-5265
Dalton Forrester	256-601-0426
Chris Mitchell	334-695-1371

### *Directions to Sale Facility*

Exit 70 on I-44.  
6821 W. Independence Drive, Springfield, MO 65802

### *Auctioneer*

Jay Elfeldt                            308-293-3049

### *Viewing of Sale Bulls*

All bulls will be available for viewing at the sale facility starting Friday afternoon until the sale starts on Saturday. If you would like to see the bulls prior to this time please call J&K Gelbvieh Farm, Inc., Ertel Cattle Co., Dalton Forrester to make arrangements.

### *Terms & Conditions*

Terms are cash or check, and settlement must be made sale day before any cattle leave the sale facility. All cattle sell under the standard terms and conditions as suggested by the American Gelbvieh Association.

### *ShowMe Select Genetic Power*

### *Qualifying Bulls*

Genetic Power has many bulls that qualify for ShowMe Select. The bulls that qualify are denoted just below the EPD box and in the footnote.

### *Sale Offering Videos*

View videos of the sale offering online at  
[www.mms.bz](http://www.mms.bz)

### *Online Bidding*

View and bid live online [www.dvauction.com](http://www.dvauction.com)

### *Liability*

All persons attending the sale do so at their own risk. J&K Gelbvieh Farm, Inc., Ertel Cattle Co., Kittle Farms, Springfield Livestock Marketing Center and/or the sale management assumes no liability for accidents, theft or damages occurring at the sale facility.

### *EPDs*

All EPDs are current as provided by the American Gelbvieh Association. EPDs are subject to change before the transfer of registration and/or the buyers receipt of the transferred registration papers due to updated data recorded at the AGA.

### *Trucking*

Reliable trucking can be available, please see the sellers if you need assistance with trucking your purchases.

Blountstown, FL 32424

## General INFORMATION

### Sale Book EPD Explanations

**Calving ease direct (CED):** Percent of unassisted births of a bull's calves when he is used on heifers. A higher number is favorable, meaning better calving ease. This EPD can be vital to a rancher looking to decrease the amount of calves pulled in his herd.

**Birth weight (BW):** Predicts the difference, in pounds, for birth weight of the calf.

**Weaning weight (WW):** Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

**Yearling weight (YW):** Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

**Milk (Milk):** The genetic ability of a sire's daughters to produce milk expressed in pounds of weaning weight.

**Total maternal (TM):** An index that combines growth and milk information as a prediction of the weaning weight performance of calves from a sire's daughters. As an index, this value is not reported with an accompanying accuracy. A greater TM value means a mother that returns comparatively higher weaning weights on her calves. TM Index = MK EPD + 1/2 WW EPD.

**Calving ease maternal (CEM):** Represented as percent of unassisted births in a sire's first-calving daughters. A higher number represents more favorable calving ease. This EPD is important to a rancher's bottom line because it predicts which animals produce daughters with a genetic pre-disposition to calve unassisted as heifers.

**Yield grade (YG):** Differences in yield grade score, which is a predictor of percent retail product. Smaller values suggest that progeny will have a better lean to fat ratio.

**Carcass weight (CW):** Differences in pounds of hot carcass weight, adjusted to an industry standard age endpoint.

**Ribeye area (REA):** Differences in ribeye area in inches between the 12th and 13th rib. Greater ribeye areas are preferable.

**Marbling (MB):** Predicts the differences in the degree of marbling within the ribeye as expressed in marbling score units. Greater marbling numbers are preferable and are an indicator of higher carcass quality grades.

**Feeder profit index (FPI):** An economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.

### Genomic Enhanced EPDs

The major benefits of GE EPDs are: risk reduction through improved accuracies, value of time to assess breeding stock at a younger age, increased rate of genetic progress, and getting data on economically important traits which are expensive or difficult to measure. All bulls have DNA submitted for GE EPDs. The bulls with GE EPDs in the sale book are denoted below the EPD box of the respective bull. All other bulls have GE EPDs pending and will be available on the supplement sheet sale day.

Genomic enhanced EPDs.

Final Frontier F67 has been a favorite of ours over the course of the past year. His pedigree is stacked for generations with the top genetics we have ever offered from our program. His dam, Blara B67 is a maternal granddaughter of our original Blara donor. The Blara family stems for the original Kara cow that many of our great females trace back to in the extended maternal pedigree.

JKGF FINAL FRONTIER C95 • Sire of Lot 1.

The mating to JKGF Final Frontier C95 really worked producing another purebred carcass bull with growth, and maternal values combined as well.

We sell all our bulls raised every year and do not hold any back. We have chosen to sell 50% possession and 50% semen interest in Lot 1, JKGF Final Frontier F67. Selling spring possession with buyer taking possession following the sale for the 2020 spring breeding season.

**JKGF Horizon F825** is the result of genetic planning with New Horizon C51 and the C15 female. The carcass combination in the pedigree is unsurpassed with New Frontier 33A, Carolina Exclusive 3214A, KCF Miss Fortune U490 and Beech Jet R052. We have stacked carcass on top of carcass with low birth and performance to hopefully produce purebred bulls like F825 that have a future as a seedstock sire. He ranks in the top 5% marbling, 10% REA and FPI, 20% YW and 25% WW.

JKGF NEW HORIZON C51 • Sire of Lot 2.

**Carolina Leverage 3214A** sires another great bull with top performance and carcass values. The dam, C106 is a super daughter of U490, the donor that has continued to produce many sires and dams throughout the breed. JKGF C106 was the high selling female in the 2020 National Gelbvieh and Balancer Sale. This is the strongest of cow families we have to offer. Top 1% WW and FPI, top 2% YW and REA and top 10% Marbling.

CCRO CAROLINA LEVERAGE 3214A • Sire of Lot 3.

JKGF HATTIE B C106 ET • Donor dam of Lot 3.

**Chief Justice** is a true calving ease sire with performance ranking in the top 8% of the breed and marbling ranking in the top 15%. We sold the first Chief Justice sons in 2019 and feel his sons will be a stepping stone to the future of the our Genetics for many years to come here at J & K Gelbvieh Farm and the Gelbvieh breed. The dam of Chief Justice, KCF Miss Fortune U490 has been a consistent producer of seedstock sires and AI sires along with the many females she has produced for the ET programs and production females. One of the top spring bulls we sold last year was a Chief Justice son we are now using in our program.

JKGF CHIEF JUSTICE C205 • Sire of Lots 11-18.
